## Troop Ship Only Link

The Troop Shipped Only link is available if you need a shipped/donated only link. You can find this beneath the Troop Cookie Link and if you click on it, you will see the full URL and QR code for this link.

This link will only allow customers to purchase Shipped and Donated orders. This link will be sent to the National Girl Scout Cookie Finder beginning National Girl Scout Cookie Weekend (check with your council for specific date).

Once your site is set up and published, there is nothing additional you will need to do in order to have your Troop Ship Only link appear to customers coming to the cookie finder to find a troop near them to purchase shipped cookies from.

All purchases on either of your links will appear in your troop records in your baker software. Your council team will share additional information about that with their training.

## Troop Booth Pickup Orders

The ability for customers to purchase from your troop can happen at a booth, or virtually using Digital Cookie. One great feature your troop can offer customers is the option to pre-pay for an order for pickup at a cookie booth your troop has scheduled. Let customers know that if they choose that option, you are sure to have the cookies they want and it speeds up their cookie buying process-no waiting outside in the cold and rain to make an order.

To activate that for your troop customers, there are just a few steps to set up that option using the cookie booths you have signed up for.

### Setup

**Step 1:** Start by navigating to the “Virtual Booths” tab on your troop dashboard.

Start by selecting an existing cookie booth from your list by clicking on “Add Pick-Up Option”

# Digital Cookie®

**Step 2:** Once you have selected a booth to add a pickup option for customers to, you will need to enter a few details about when the customer will see that pickup location as an option.

**NOTE!** Consider ending that option 12-24 hours before the booth sale will begin so you have time to review and approve all orders. If you have concerns about inventory for pickup orders, consider ending the option even earlier so you can secure the necessary product for the orders.

**Step 3:** If you need to edit or delete your pickup locations, you can view your list of pickup locations and edit or delete them.

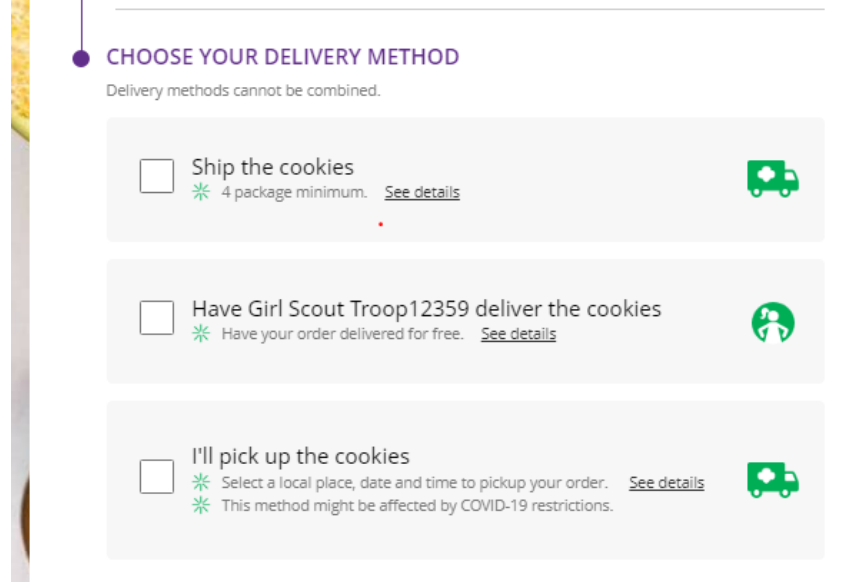

**Important!** If you cancel a booth in the bakers system, you must delete the booth from here so customers can no longer select it as a pick-up option. Check your orders tab for any orders that were scheduled to be picked up and make alternate arrangements or cancel and refund them

## Customer View

When the customer gets your troop link and wishes to make a pickup order, here is what it will look like for them.

**Step 1:** They select “I’ll pick up the cookies” as an option at checkout

**Step 2:** They will be asked for a zip code and see your booths with pick up options closest to that zip code. They will select with booth location and date/time they want to pick up those cookies.

**Step 3:** The checkout screen will automatically populate the address as the pickup location.

Customers will receive an email letting them know their order needs to be approved and letting them know if it was approved or not after you review it. If it was approved, it will also remind them of when/where they are picking up their cookies.

## Orders

As customers order cookies to be picked up at your cookie booth, those orders will need to be reviewed and approved within 5 days of the order being placed.

**Step 1:** To review the orders navigate to your “My Troop Orders”

You can check the box in front of the customer order to approve or decline it. If you approve it, it will move into the “orders to pickup” section. In the orders to pickup you can click on any of the column headers to sort the orders. You can also check the boxes in front of the orders to select some or all of the orders to export to get a list of orders to prepare for your booth sale,

When the customer has picked up their order, be sure to mark the order as “Order Picked Up” so that it will clear out of your list of orders that need attention.
